PROFILE

Hi there! I'm a Software Engineer specializing in Python, Odoo (v16-v19), and frontend technologies with expertise in module development, API integrations, and report customization. Skilled in building scalable, client-focused solutions with a strong foundation in computer science and hands-on experience across version migrations, performance optimization, and cross-platform integrations. Passionate about solving complex problems and delivering impactful software solutions.

PROFESSIONAL EXPERIENCE

- Software Engineer

Nov 2025 – Jul 2026

Ksolves India Pvt. Ltd.

Indore, Madhya Pradesh

 - Served as a Techno-Functional Consultant, bridging business and technical teams by gathering requirements, analyzing workflows, and delivering tailored Odoo solutions aligned with client objectives.
 - Prepared BRDs, functional specifications, effort estimations, and technical proposals to ensure clear project roadmaps and informed client decision-making.
 - Led end-to-end Odoo implementations covering solution design, module customization, and custom development, ensuring deliverables aligned with client workflows and business goals.
 - Identified process gaps and recommended optimized Odoo solutions, balancing native functionality with targeted customizations to minimize technical debt and maximize ROI.
- Software Engineer

Jun 2023 – Aug 2025

Brainvire Infotech Inc.

Mumbai, Maharashtra

 - Designed, developed, and optimized backend features across Odoo versions 16, 17, and 18, delivering scalable, high-performance solutions tailored to diverse client business requirements while ensuring code quality through rigorous testing and debugging.
 - Led seamless version migrations and system upgrades, collaborating with cross-functional teams to integrate third-party APIs and expand system capabilities, ensuring minimal disruption and maximum reliability throughout the transition.
 - Engineered custom QWeb reports and client-specific functionalities, empowering stakeholders with tailored documentation and actionable insights that aligned precisely with their operational and reporting needs.
- Junior Software Engineer

Jan 2023 – Jun 2023

Pingaksh Technologies

Udaipur, Rajasthan

 - I have worked with Microsoft technologies, including SharePoint, Power Automate, and Power Platform, for a clients in Denmark.

EDUCATION

- Bachelors of Technology - Computer Science (AI)

Marwadi University

2019 – 2023 | Rajkot, Gujarat
- Senior Secondary Certificate - CBSE

Ryan International School

PROJECTS

POS & Backend Customization

- Customized Odoo POS reports and backend features based on client needs.
- Developed custom POS functionalities using JavaScript and Python.
- Researched core Odoo modules and third-party integrations for enhancements.

Client: USA | **Industry:** Retail | **Tech Stack:** Odoo 16 Backend, POS, JavaScript, Python | **Role:** Support Developer

Report & Website Customization

- Customized backend reports to meet industry-specific requirements.
- Explored and implemented Odoo website customizations.

Client: USA & Canada | **Industry:** Diamond | **Tech Stack:** Odoo 17 Backend, Python | **Role:** Software Engineer

Odoo Version Migration

- Migrated custom modules to Odoo 18 ensuring compatibility and continuity.
- Maintained consistency across versions during transition.

Client: In-House | **Tech Stack:** Odoo 14/15 → 18, Python | **Role:** Software Engineer

Odoo-Magento Integration Platform

- Developed REST APIs for real-time Odoo-Magento bidirectional sync.
- Built and customized modules for syncing products, orders, and customers.
- Handled performance tuning and cross-platform data flow.

Client: In-House | **Tech Stack:** Odoo 18, Magento, REST API, Python | **Role:** Software Engineer

Odoo - Magento Integration

- Enabled real-time data synchronization between Odoo and Magento.
- Integrated Magento's store credit system into Odoo.
- Enabled real-time sync for orders, refunds, and credit balances.
- Developed and optimized custom credit transaction workflows.

Client: USA | **Industry:** Retail | **Tech Stack:** Odoo 17, Magento, Python | **Role:** Software Engineer

Odoo - Magento Integration

- Developed full Odoo-Adobe sync flow, including customer membership.
- Implemented business logic restrictions in Odoo based on client needs.
- Ensured consistent real-time data across both platforms.

Client: Singapore | **Industry:** Luxury Fashion Retail | **Tech Stack:** Odoo 18, Magento, Python | **Role:** Software Engineer

DECLARATION

I hereby declare that all the information mentioned above is true to the best of my knowledge and belief.
